

SCHOOL BOARD USE OF ELECTRONIC MAIL
School Board
Code = 296

Use of electronic mail (e-mail, texts, instant messages, etc...) by school board members should conform to the same standards of judgment, propriety and ethics as other forms of school board-related communication. Board members shall comply with the following guidelines when using electronic mail in the conduct of board responsibilities:

- A. The school board shall not use electronic mail as a substitute for deliberation at board meetings or for other communications or business properly confined to board meetings.
- B. Board members should be aware that electronic mail and attachments received or prepared for use in board business or containing information relating to board business are likely to be regarded as public records which may be inspected by any person upon request, unless otherwise made confidential by law.
- C. Board members should avoid reference to confidential information about employees, students or other matters in electronic mail communications because of the risk of improper disclosure. Board members should comply with the same standards as school employees with regard to confidential information.
