

ATHLETIC UNIFORMS
Non Instructional Operations
Policy 737

The athletic director works with the teams to determine equipment and uniform needs. Uniforms are purchased on a rotation with the newest going to the varsity teams and working their way down to the B-squad, freshman and other teams. It is important that players and their families take proper care of the uniform during the period of participation. Coaches will provide athletes with proper care instructions at the beginning of each season.

Damage to uniforms through normal wear and tear will be the responsibility of the athletic department. However, if a uniform is lost or damaged in a manner that is not a result of participation in a school event, the student athlete will be responsible for the cost of replacing or repairing the uniform.

At the conclusion of the season, school uniforms and equipment must be returned to the team's coach. It is the *responsibility of the athletic director to ensure that coaches have inspected and collected all uniforms and equipment within one week of the final season event.*

New uniforms are purchased for each varsity team on a **five-year rotation** basis. The list is maintained by the athletic director and will be shared with all coaches and other interested parties. All uniform requisitions need to be approved by the athletic director and superintendent before orders are placed.
